

Race for Rating
Continues Hot

"RUBE" SHARP ANNIHILATING
VICTIMS RIGHT AND LEFT—
RUMORED HE IS THINKING
ABOUT CHALLENGING GRU-
GAN OR TILDEN

In spite of all the rain and the almost freezing weather of the last few days, the race for higher ratings in the Narberth Tennis Association's all summer marathon, continues with unabated zest.

"Rube" Sharp is fast developing into the "Mad Mullah" who "slays" all comers, friends and foes alike. When the rating list was originally made up, Sharp, not having participated in last fall's tournament and being an exceedingly modest fellow with respect to his own tennis prowess, said very little about what he could, or hoped to do. So the Tournament Committee gave him a place fairly well down in the list.

From that day to this Sharp has been riding ruthlessly over everybody that crossed his path. Club-car commuting brothers mean no more to him when he gets on the courts than a drop of water means to the Atlantic Ocean. One after another Sharp mows 'em down.

Kruse Almost Had Him

During the past week, this Montgomery Avenue Comet added two additional scalps to his belt. First he challenged Kruse and for a time it looked as though his career was going to be cut short. Kruse won the first set, 6-4, came within an "ace" of winning the second, which Sharp finally took by the same score. But then Sharp unleashed his saber and, another head fell in the basket! Score, third set, Sharp 6, Kruse 2.

A couple of days later, this same Sharp, feeling the need of a little light exercise—nothing strenuous, you know, but just enough to keep him in trim for bigger game ahead, took on Muschamp and walked away with two straight sets, 6-3, 6-0.

But this newly found "Mad Mullah" is making a great mistake if he thinks his victims are going to stay "dead." Deep and divers plots are being hatched, and he is likely to be well-nigh inundated with challenges during the coming weeks. As one of his victims is reported to have said: "He may beat me again, but he'll never look the same!"

Other Matches

During the past week Whitney defended his place against Pattison, winning two straight sets, 6-4, 6-3.

Shaw defended his hold on No. 4 by defeating McCahill, 6-1, 6-0.

McKell challenged Staples, the latter defaulted and McKell moved up to No. 9.

Cowin challenged Hall, to play for a rating, Hall defaulted, and Cowin moved in No. 12.

Little challenged Scanlon, the latter defaulted, and Little moved up to No. 21.

Bryn Mawr Team
Loses Ball Field

RESIDENTS' COMPLAINTS HALT
CONTESTS ON PUBLIC SCHOOL
GROUNDS.

The Bryn Mawr Main Line League ball team has been forbidden the use of the school ball field by the Lower Merion School Board.

This action was taken following complaints of residents living near the field that the games were accompanied by profanity and vulgar language. Another factor which entered into the opposition of the residents was the fact that the team had caused to be cut down a large cherry tree which interfered with the outfield players.

The matter has brought forth considerable comment from the people of Bryn Mawr. Those living near the field complain of rowdism and noise, while many local fans claim that the games have been conducted in a perfectly respectable manner.

The action of the School Board in Bryn Mawr recalls the similar situation in Narberth a month ago, when, because of complaints of some of the residents on Sabine avenue, the Narberth ball team was barred from the field by the School Board and compelled to find new grounds.

The Bryn Mawr Business Men's Association has taken a stand against the closing of the school field to the team, and are joined by other residents who claim that the school property is for the use of the entire community.

We have not as yet learned what the Bryn Mawr team expects to do for the rest of the season. Narberth, fortunately, was able to secure grounds, but these are only temporary. The whole baseball field situation only serves to emphasize the need for the speedy acquisition and development of a proper playground, which will be a center for all athletic activities in the borough.

Tax Notice

All voters are required to pay a tax of two mills (\$.002) on each one hundred dollars (\$100.00) assessment on real estate or occupation. Send your check for the amount to

Ground Broken For New Parish House

Participants in Ground-Breaking Service.

The work of enlarging All Saints Church was begun on Monday of last week. Rev. Gibson Bell, rector of the church, held a short service on the breaking of the ground, a photo of which is reproduced above.

A number of members of the congregation were present at the ceremony. The contractors, W. D. & H. T. Smedley, of Narberth, have promised to complete the additions by December 1st.

An architect's drawing of the enlarged church and the parish house was reproduced in Our Town in April last. The new seating capacity of the present church is 138 and the enlarged

church will seat 261 in its pews and choir. The new chancel with its choir stalls will do much towards adding dignity and impressiveness to the service.

The plans for the parish house provide for an assembly room, 20 by 48 feet, and a rector's room on the main floor (at the same level as the church) and a choir robing room, kitchen, storage and toilet rooms on the ground floor.

This enlargement, following the recent additions to the Narberth Presbyterian Church, is another result of the steadily increasing congregations at all the churches of Narberth, and will do a great deal in widening the scope of our local church activities.

Hot Weather No
Handicap to Library

The steady growth in patronage and interest manifested in the Community Library is a source of gratification to those in charge.

Last Friday was by far the most active day yet experienced, both in the number of persons visiting the Library Room and in the number of books taken out.

Magazine Corner

More and more people are coming to take advantage of the excellent magazine corner established in the Lobby. Copies of several of the latest magazines are kept constantly on hand, and easy chairs are provided for the readers. It is felt that when patrons are more familiar with this feature, it will become one of the most enjoyable departments of our excellent and growing library facilities.

Source of Books

There is a man in Narberth whose business causes him to travel extensively. Some time ago he tired of the magazines and began to buy books to read on the train. His taste in books is good and all that he bought were so interesting that he finally discovered that he was conducting from his own home an impromptu circulating library among his friends.

Such a man naturally was immediately interested in the start of the Community Library last winter and has watched its growth with much interest. And his interest has taken a tangible form for he has contributed a large number of books to the collection. Many of these are recent, all of them are good. They have proved to be a valuable addition to the circulating collection and have already brought in the price of several new books.

Although the collection of new books in the Community Library is still small, as libraries go, it now numbers well over 100 volumes and is sufficiently comprehensive so that nearly every literary taste can find something worth while and entertaining. Practically all of the best fiction of the present year

OUR COUNTY TAXES

This is the first year that the County Treasurer has not posted notices in the Borough fixing a date on which county taxes could be paid in Narberth.

Thanks to the legislature which we elect to act for us in such matters they see fit to impose a burden and a nuisance on tax payers in boroughs by making the county tax a separate collection from borough taxes, while in townships the taxes are all collected at one source, the Township Treasurer's office.

No notices are sent and new property owners in boroughs are supposed to know by some manner of means that county taxes are due and where and when. There have been a great many cases of properties being levied on for delinquent taxes when the owner has been entirely ignorant of such taxes being due, generally under the impression that his or her borough tax bill covered everything—which it should. The officers of the Narberth Civic Association have for several years notified property owners of this tax through Our Town. We trust that every property owner is a subscriber and reader of Our Town and will promptly write for his county tax bill to the address given in the notice of page 1 of this issue.

OPERATING A BOROUGH WITHOUT MONEY

According to the General Borough Act of Legislature by which boroughs are governed, it is the councilmen's job to estimate the amount of money required to operate all departments of the borough, including maintenance and improvements, at the first of the year and fix the tax mileage rate on assessed valuation of real estate to cover all expenses.

This is a very nice arrangement but—when do they get the money and when do they spend it? The answer is that they start to spend it January 1st and get it from August 1st to October 1st and part of it about December 31st, some delinquent accounts are even collected after the first of the following year.

Spend it first and then collect it! The Act also limits the borrowing capacity of the borough to a small percentage of the amount of taxes in process of collection and this limit is easily reached early in the year.

The borough tax is arrived at first and then we wait until the school tax is arrived at so that they can both be collected together. This makes it about June before bills can be sent out.

If we all paid our borough and school taxes as soon as the bills were received we would relieve our councilmen a lot and help to solve the problem of operating a borough without money.

Let us take advantage of the substantial discount for early payment and get rid of that bill that cannot be evaded. Our local taxes are fair and reasonable and have been kept low only by hard work and good management on the part of our very able and efficient Borough Council.

Communications

APPRECIATION

To the Editor of Our Town:

On Thursday morning, July 14th, our Fire Department had a call. The whistle blowing, according to my watch at exactly four minutes after three, and the Department went out on Haverford Avenue, passing Iona Avenue at exactly nine minutes after three. I think that the faithful work that our local Fire Department does should be highly appreciated by everyone of our Citizens. I am sending you this article with the hopes that you will publish it, because I fully believe that everybody living in our Borough should appreciate the wonderful service that we are getting from these men and they should receive our hearty support at all times. I don't think their record can be surpassed by any Department in the State.

William G. Torchiana.

To the Editor of Our Town:

The writer has been interested in the discussion now running on the use or uselessness of the English sparrow.

Although one always admires the person who sticks up for a persecuted creature, yet I cannot see the logic of Mr. Stelem's reasons for saying that the attacks on the English sparrow are unjustified.

He cites an example of a scrap between purple martins and blue birds as a justification of the sparrow's endless persecution of the birds which otherwise would nest near our homes. Finally, he says he will match any story of the misdoings of the sparrow with "one of equal interest in which the offender was anything from an owl to a bull finch or Baltimore oriole." Not a difficult task when we consider that there are over a hundred species of birds in this section on which to draw for incidents to match the crimes of one species, the English sparrow.

The point is not to determine whether the bad points of a hundred species match those of the sparrow, but whether any other bird can approach this foreigner as a menace to our beautiful native species. The fact that a hundred men commit a murder or two apiece does not justify the existence of another man who commits a hundred himself.

For every bird lover who cares for the English sparrow there are a hundred who do not, and the writer humbly suggests that the sparrow enthusiast build himself a sparrow farm back in the country, where he can listen to their pleasing melody all day long, undisturbed by the disagreeable sounds of the wood thrush, vireo or oriole.

ORNITHOS.

IS NARBROOK PARK PUBLIC OR PRIVATE?

There seems to be an impression in the minds of some residents of the Borough that Narbrook Park is a public park maintained by the Borough.

For the information of those who are not familiar with the facts and conditions, be it known that the Park is private property and is maintained at considerable expense and labor by the property owners residing in the adjoining properties.

It was the original intention that the Park be dedicated to the Borough and that the Borough maintain the

Park roads and lawn and the lawn or park area between the roads be used as a public park. Borough Council however has advised that the proffer of dedication will be rejected until the roads are rebuilt at a probable cost of several thousand dollars which expense of course would be borne by the lot owners.

Residents in the Park have organized the Narbrook Park Improvement Association and from present plans the Park will be maintained as private property. Signs are being made for the entrances indicating that the roads are private and that heavy hauling will not be permitted.

Some members feel that "no trespassing" signs should be placed on the lawn or park area; this is quite within the rights of the owners, but as the green has been used as a playground for small children for some time it is not the purpose of the owners to prevent this as long as the children conduct themselves quietly and orderly and do not become a nuisance.

This beautiful development which has added much to the beauty of the borough, and has also added much in revenue to the borough taxpayers at very little expense, should be appreciated for the beauty spot that it is and its privileges should not be abused. A member of the Narbrook Park Improvement Association.

NARBERTH ROADS BEING PUT IN FINE SHAPE.

The re-surfacing work being done on Narberth's streets promises to give us one of the finest set of highways in this section.

Local motorists are pleased to note that work has been begun on the stretch of Wynnewood avenue from the P. R. R. tunnel to Windsor avenue. This scarred and pitted piece of road has long been the bane of motorists' lives, and its repair will remove the worst stretch of bad roads in town.

It was unfortunate that last week's storm came just before Elmwood avenue, between Essex and Maple avenues, was completed. Some of the newly-laid gravel was washed off, but Street Commissioner Suplee was on the job the next day and soon had the street in fine shape.

The only dangerous aspect to this excellent piece of road work is that it offers a big temptation to speeders. It has been noticed this week that many drivers are getting the habit of taxing their speedometers on this stretch. There are too many small children on the South Side to permit of any speeding on its streets. Let's hope the growth of our highway system will not be marred by a tragedy.

NOTICE TO TENNIS MEMBERS.

Members of the Narberth Tennis Association who have not as yet procured their keys for the new grounds can get them from Walter Cowin, Sr., chairman of the Grounds Committee, at 25c. apiece.

RABIES NOW CHECKED; MANY DOGS LICENSED

Danger Past in Delaware, Chester and Montgomery, State Believes.

Harrisburg, Penna.—With the announcement that the outbreak of rabies in Delaware county and portions of Chester and Montgomery counties was believed to be under control, the State Agricultural Department also announced today that the number of licensed dogs in Delaware county had increased over 100 per cent. since the department's drive to check rabies began.

In 1920 there were 5,377 dogs licensed in Delaware county, but the number of licensed canines now in Delaware county was fixed today by H. E. Cluch, chief clerk in the department, at more than 10,000. Five hundred prosecutions brought by agents of the department against owners who had failed to take our licenses is believed responsible for the rush of persons to comply with the provisions of the dog law of 1917. Fred Rasmussen, State Secretary of Agriculture, said that if present conditions continue, the quarantine, which expired August 1, will not be renewed.

BUREAU OF WAR RISK INSURANCE.

Among the 341,347 active compensation and insurance claims on file in the Bureau of War Risk Insurance there are three cases on which a compensation award for double permanent-total disability is being paid, the only three coming under that provision of the War Risk Act. Each case gives evidence of the degree of ingenuity and courage which survive in these former service men, both blinded and maimed.
Henry A. Bitter (C-165,389), Corporal, Company C, 352nd Infantry, 88th Division. Bitter was injured in Toul Sector, France, on the 16th of November, 1918, by accidental explosion of hand grenade. His company was assigned to gas training at a French training camp. On the last day at gas school, maneuvers were ordered.

While advancing through a smoke screen under orders, with a hand grenade to be thrown at an imaginary enemy, the pin in the hand grenade became loosened and the hand grenade exploded, causing injury that resulted in the amputation of both hands and loss of sight of both eyes. He was awarded \$200 a month, and on his \$10,000 insurance the monthly payments of \$57.50. An attendant was furnished him and he was fitted with artificial hands. Before entering the service he had been a registered pharmacist. He was given vocational training and recently has notified the Federal Board that he had, with his brother acting as associate and personal attendant, completed the formula for a proprietary medicine.

Pearl Perry (C-285,110), Private, Field Artillery. The premature explosion of a hand grenade at Verdun, October 3, 1918, entirely destroyed both hands, right eye destroyed, and hearing impaired, and he was under hospital treatment from date of injury until August 2, 1919, when he was discharged. Besides his double permanent-total award of \$200, compensation from the date of discharge, there was also made to him the insurance award of \$57.50 a month retroactive to the date of his injury. He was a truck driver before joining the army and a recent report from a hospital where he had received treatment for a minor accident contains the information, "he wears artificial arms and drives his auto."

Charles Joseph Bronner (C-358,766), Seaman, 1st class, U. S. N. Bronner received his injuries in Italy, August 19, 1919, while on a recreation party with some sixty other sailors from his ship, the U. S. S. J. Fred Talbot. While going through the trenches near the battlefield Monfalcone, Istria, looking for souvenirs, a hand grenade or some similar explosive was discharged and blew off both hands and blew out both eyes. These injuries were judged as received "not in line of duty," and he was awarded \$220 compensation and attendant allowance, and on the \$2,000 insurance which he had applied for and had been granted he is receiving a monthly payment of \$11.50. Immediately upon discharge from the Navy, Bronner applied for vocational training and was given a course at the Red Cross Institute for the Blind, at Baltimore, Maryland, the Federal Board paying him \$80.00 a month and the Bureau of War Risk Insurance continuing to pay \$140 during the course. Bronner has successfully adjusted himself to his apparent unsurmountable handicap by the use of artificial arms terminating in complicated attachments with which he can carry heavy articles, serve himself, and hold a cane for his guidance about the school.

Mrs. Harold W. How, of Bryn Mawr, Chairman of State Health Committee of Lower Merion and Narberth, returned recently from a conference of the Red Cross Center Personnel of the Atlantic Division, at Hotel Pennsylvania, New York.

"We are privileged to live in a new era," said Howard J. Rogers, Manager of the Atlantic Division of the American Red Cross, at the opening session Thursday. "Through the centuries of the past man has accepted his lot as the decree of fate but today he begins to see that in health as in activities he is largely his own arbiter and that when he wills he can control."

"It was only yesterday that the average span of life was thirty years, but today it is 43. As we comprehend that forty per cent. of all sickness may be prevented, the mission of the Red Cross Health Centers dawn upon us. They are the outposts of a new Republic of Health. It was hard and oftentimes discouraging for our forefathers to conquer the wilderness but they won; and so can we help to bring on the day when a common knowledge of the ordinary principle of health and sanitation is the common possession of the entire people."

"One out of ten of all deaths of women between the ages of 15 and 45 years is the cost of maternity. Adequate instruction and care of prospective mothers will reduce this price by half. It is a terrible thing that the very continuance of the race should entail such needless sacrifice. The Red Cross Health Centers, through their prenatal conferences and classes are doing much to prevent this loss."

"In the less than two years since the first Red Cross Health Center was established, the Red Cross Chapters and Branches of the Atlantic Division alone have established and now conduct seventy-two each under trained direction."

"I look forward with confidence to the time when many more will resume this service and Red Cross Health Centers become as common as school houses are today and be recognized as just as essential a part of the training and development of a great people."

The above department should be of the greatest use to the community, the list contains the names of every professional man, tradesman, mechanic, shopkeeper, etc., who does or can in any way serve his fellow-townsmen, and who is progressive enough to add name to list of Register.
As it is difficult for those contributing their time and efforts to the production of "Our Town" to personally either know or interview all such, it would be most helpful if those not now found in the printed list would send in a memo of their names, address, phone numbers and businesses or professions for listing. This will cost as follows: 10 cents each issue for 2 lines; 5 cents for each additional line.

THE BIRD COLUMN.

The articles on the Economic Value of Birds will not be published during August, as the writer is leaving Narberth for the month.

However, the discussion on the English sparrow has created such interest among Narberth bird students that the bird column will be continued in my absence.

With next week's issue of Our Town this column will be conducted by a friend of the writer, a man interested in bird conservation and bird study.

I trust that this series of articles has awakened interest in Narberth, so that definite steps may be taken in the near future to attract more of these most useful citizens to our town, and to afford them protection from their enemies.

BIG FLIGHT OF WILD GEESE NOTED IN SOUTH DAKOTA

Reports to the Bureau of Biological Survey, United States Department of Agriculture, from many parts of the country indicate that the unlawful killing of migratory waterfowl during the spring flight was greatly reduced this year, as compared with the heavy slaughter during the spring flights in former years. It has been found that a large majority of people are impressed with the fact that the Government's work for bird protection is not only a wise conservation measure but is necessary to perpetuate hunting as a sport. The Federal law protecting migratory birds is thus being better observed and birds are not being molested so much in spring as formerly, with the result that they are now breeding in many places from which they were formerly driven because of constant disturbance from spring shooters. A message from one of the wardens 2—Our Town PIDD regarding the spring flight of geese in South Dakota shows the excellent results being secured under the migratory bird treaty act regulations. "Never, even in the memory of the 'old timers,' has eastern South Dakota seen a spring flight of wild geese such as has taken place this year. They have flocked into lakes and fields in countless thousands."

will be found on the shelves and in the case of those books which have been particularly popular, there are two volumes available. There are several good volumes of essays, and in the biography group there is the notable "Americanization of Edward Bok" which is an autographed copy contributed by the author.

Another book which is almost bio-

graphy is "The Mirrors of Downing Street," an excellent characterization of the leading figures of England during the World War. This book has been in constant demand ever since the Library procured a copy. M. G. Wells' "Outline of History" in two volumes, in many respects the most notable book of the year in the English language, is also an active circulator in the local Library's collection.

AND THEN I think.
WHAT I would do.
IF I were boss.
I'D OPEN shop.
AT TWELVE o'clock.
AND CLOSE at one.
WITH ONE hour off.
FOR LUNCH, and I.
WOULD GET old Sam.
TO RUN me out.
IN HIS big six.
AND DROP me off.
UNDER A greenwood tree.
BESIDE A babbling brook.
AND THERE I'd lie.

AND EVERY once.
IN A while.
ROLL OVER.
OR MAYBE sit and think.
BUT MOST likely.
JUST SIT.
AND EVERY once.
IN A while I'd light.

The Ups and Downs
of a Tennis Hero

OR THE TRAGIC STORY OF A CERTAIN YOUNG MAN FROM PLAINFIELD, N. J.—WITH OTHER TENNIS NEWS

"Well," sighed the well-known and we are gladly to add, favorably, known, Hal Dick Fenno, formerly of Plainfield, New Jersey, as he packed up his William T. Tilden, along about dusk on Tuesday evening, "Paraphrasing that nifty little inscription on the tombstone of a certain ex-gunman in the cemetery at Leadville, Colorado:

"I done me durndest; angels can no more!"

"Yes," chirped up Frank Baer, who wanted to tell that bewhiskered one about the elevator man having his ups and downs, but was gagged, bound hand and foot and carried off the courts before he had a chance to get away with it.

"You sure done noble, I'll tell the world," added Jim Donnelly, speaking in pure Gaelic.

And what with one word and another of cheer and consolation the ex-Plainfielder finally came to the conclusion that all things considered maybe he hadn't done such a bad week's work.

"Didn't you stop Sharp?" asked Old Bill Bailey, famous in "song and story."

"Well, didn't yuh?" added Kruse, in chorus with a couple more of Sharp's recent victims.

"I did!" modestly admitted Mr. Fenno.

"Well, then, whatthealmatell?" remarked one of the other members, who requested that on account of the seri-

BERT SIMPSON MAKES A "RUBE" WADDELL RECORD

A baseball pitching record was made last Saturday by one of our Narberth residents that, so far as we know, has never been equalled in these parts and is not likely to be reached for some time to come.

Bert Simpson, who before he "retired" from the diamond some years ago to take up tennis, and who in those days was known as "Pink" Simpson, the star twirler of the University of Pennsylvania and one of the best in collegiate circles—well, last Saturday, Bert pitching for Bell Telephone Company Engineers' nine against the team of the American Telephone and Telegraph Company, struck out 23 men! The nearest he ever came to that record was some years ago when, in pitching for our Narberth Main Line team in a game with Bryn Mawr, he struck out 20 men.

When you consider that there are only 27 outs in an entire nine innings, and that 23 strikeouts leaves only 4 remaining outs for all the other members of the team, it isn't exactly an exaggeration to say that Bert darn near walked away with that game last Saturday all by his lonesome. Why that's enough to turn George Edward Waddell over in his grave. What'll you have Bert?

AT LAST

Because of, or in spite of our recent letter asking the P. R. R. to clean up the south-side grounds of the station, steps have at last been taken to harvest the annual hay crop.

We thank you, P. R. R.

Narberth Boy Scouts
Return from Camp

Five Narberth Scouts, the last of the twenty fellows who left for Camp Delmont on July 23rd, returned to Narberth last Saturday.

The troop made the trip to camp by motor truck. The Camp is located in the lower part of Montgomery County, three miles from Green Lane station, on the Perkiomen Railroad, and consists of 100 acres of land along both banks of Unand Creek. It is maintained for Scouts residing in Delaware and Montgomery Counties.

The Narberth boys made a fine showing in camp activities; the excellent training given them by Scout Master Patten standing them in good stead with the other troops.

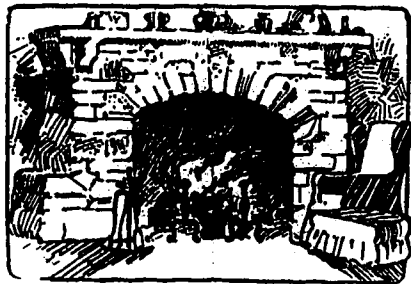

In the aquatic meets the Narberth troop was right up front. The local boys won the four-man aquatic relay, and largely through the speedy swimming of Howard Valette, ran away with several of the dashes.

The boys who stayed for the second week were treated to a very realistic moonshiners' attack, staged by the camp leaders. Up to the very hour of returning, they thought it to be a real combat, so well was it "pulled off."

The following members of the troop attended the camp: Scoutmaster Fred F. Patten, Bernard Youngbluth, George Maguire, Anthony DeLouis, Clarence Metzger, Joseph Snyder, Christopher Herron, Bob Patten, Atherton B. Lane, Robert MacKinnon, Wells W. Wanamaker, Alfred Odiorne, Carson Knight, John Timm, Paul Longley, Howard Valette, Russell O. Sharp, Francis Lambert, Thomas Merkle, Gordon Rudolph, and Fred F. Patten, Mascot.

SCOUTS IN CAMP ALL OVER THE COUNTRY.

L. L. McDonald, National Camp Director of the Boy Scouts of America, recently gave out that there are approximately two thousand troop and council camps at present in operation in the United States, which means that over 150,000 boys are enjoying this summer the benefits and delights of life in the open under ideal conditions of leadership and equipment. All these camps are under expert scout men and are conducted in accordance with the requirements of the national camping department. The Scout Law is the law of each camp and every one of these 150,000 boys will come back home a little nearer the Scout ideal of "physically strong, mentally awake, morally straight."

NARBERTH DEFEATS BERWYN AND TIES FOR FIRST PLACE WITH ARDMORE, HIGHLAND PARK AND WAYNE

NARBERTH, 7; BERWYN, 4

By defeating Berwyn last Saturday, Narberth went into a quadruple tie for first honors in the Main Line League.

Despite the absence of Stites from the lineup, the local boys played a fine game. The pitching of Bob Hood, who held the Berwyn sluggers to eight widely scattered hits, and struck out ten men, was a big feature of the game, while the heavy hitting of the entire team kept Berwyn on the run from the first.

Editorial

GARBAGE ALLEY

Suggestions have been received at this office that the name of Haverford avenue be changed to Garbage Alley.

At the request of one of our councilmen, we published an editorial some weeks ago on the dirty condition of Haverford avenue, in front of many of the stores. Some improvement was noticed at that time.

Recently, however, and this week in particular, the gutters on our main business street have been a disgrace. Cornucopias, cantaloupe rinds, egg shells, paper, rotten onions, lettuce leaves, tin cans and just plain dirt are some of the ornaments visible in the gutter between Essex and Forrest avenues the early part of this week.

How did it all get there? That is hard to tell. A better query would be, why is it allowed to remain there? Do not the merchants realize that filth like that, especially in contrast to a finely paved street is a poor advertisement for any business which caters to tidy housewives?

A friend with a nautical turn of mind, in hearing of the proposed renaming of Haverford avenue to Garbage Alley, suggests that Essex avenue, near Haverford, be called in future Dead Man's Cove. He bases this suggestion on the presence of a dead cat in the gutter at that point. It had been laying there for some time, and at the present writing, is still there.

Attractive parks and residences do much toward the good impression a town leaves on visitors, but the effort is wasted when the first view includes the objects enumerated above.

It is often said that Cleanliness is next to Godliness. If that is true, then Haverford avenue certainly looks like—well, enough said on the subject. It's time to get busy with shovels and brooms and clean up.

THE FALL FLOWER SHOW

And now comes the welcome announcement that plans are well under way for our Second Annual Dahlia Show.

The success which marked last year's show leads us to believe that this

coming exhibit will be the finest in the history of local flower shows. The Spring Shows have been an annual institution for some years, and have been the centers of much interest; but the spring shows are at the mercy of capricious weather, whereas a wealth of material is usually insured for the Fall exhibits.

The great interest among Narberth people in Dahlias, and the splendid results obtained by many local growers makes this Annual Fall Show a thing of beauty, not only to the exhibitor, but to anyone fond of attractive flowers.

A little over a month remains to prepare for this event, and the time is right to go over gardens carefully and see that everything is in first class growing condition.

ANONYMOUS

Someone else has joined the ranks of the Waste Basket Brigade. Despite constant warnings about unsigned communications, we have one this week on the park property question, expressing very strong sentiment on the subject, but signed only with an indefinite "A Resident."

It should not be necessary, but we again repeat our stereotyped rule, which is maintained by practically every newspaper and magazine: Our Town will gladly publish any communication on subjects of interest to Narberth folks, provided it does not tend to open a political or sectarian discussion, and provided the writer's name is signed thereto as an evidence of good faith. This name will be withheld from publication if requested.

The Ups and Downs of a Tennis Hero

(Continued from Page 1)

ous illness of his grandmother, this name not be mentioned.

Mr. Harris Introduces Mr. Glose

All of which means that St. George Fenno went boldly out to combat with the Terror of Montgomery Pike last Saturday afternoon, on the courts of the Narberth Tennis Association, slew the dragon—erstwhile "Rube" Sharp, 3-6, 6-4, 7-5. That is, he stopped the Mad Mullah in his mad career, moved up a peg in the rating, and then on Tuesday afternoon fell, himself, a victim before the magic wand of a certain Mr. Glose.

Whereupon Jess Harris, speaking under the stress of one of his favorite colics in the head, walked up to Dick and said:

"A Glose shave, I say, old dear!"

Glose, who was playing Fenno for a rating, won two straight sets, 7-5, 7-5.

And while Mr. Fenno was getting his "Glose shave," Jim Follin and Bill Hall, "far up in the highlands" of the upper courts were battling away for the privilege of occupying place No. 13. It was a terrific combat "lasting hours and hours and hours"—so Bill said the next morning, and finally wound up with Bill the victor, 3-6, 6-4, 6-4. Which leaves Jim in the state of being "all dressed up and no place to go" until the Tournament Committee gives him another shot at somebody else.

The Great Shaw Mystery—Exploded

In the same boat—with Follin is Robert Fretz, Esq., who, on the same memorable afternoon, essayed the thrilling, not to say dangerous and difficult role, of contender for the position now occupied by one Walter Shaw. Fretz like Follin was playing for a rating.

Now it is quite possible that Mr. Tilden could beat Mr. Shaw, but the idea that he might not win himself would never occur to Shaw until Tilden had scored the last point in the last game of the last set. A peculiar fellow in this respect, we must admit, and possessed of certain extraordinary characteristics which make it extremely difficult for even better players to beat him. You see, he doesn't seem to understand it at all when the game is going against him, but keeps right on playing just as hard as he can. Perhaps that accounts for the scores in his match with Fretz, certainly for the first set: 8-6, 6-1.

Welcome to Our City, Mr. Cowin

Mention should also be made of another notable match last Saturday afternoon, between Newell and Cowin,

the occasion marking the annual re-appearance of the latter in playing togs. Which is not to say that he has not been seen on the courts heretofore this season. On the contrary no two members have been more active than the active chairman of the ground committee. But he has been so busy getting the new grounds and the club building in shape that he hasn't had much time to play the game. For all of which the membership is deeply indebted to the Chairman of the Ground Committee.

And now, in view of all these nice words, Walter surely won't object to our letting it be known that Newell won the match 2-6, 6-2, 7-5, and Doc Hartley, who was the sole surviving spectator, says that Jack's winning that last set was just about as easy as pulling a double barreled molar.

Williams and Whitney again changed places. This time Whitney won 8-6, 6-0, and Williams stepped down one place.

Other matches played during the past week resulted as follows: Baer won two out of three sets with Smedley; W. D. R. Evans defeated Baer, 6-2, 6-3; Little defeated Smedley, 6-4, 6-4; E. Warwick defeated Hartley, 6-3, 6-3; Muschamp defeated Kruse, 8-6, 6-3.

Here's How They Stand

The following is the rating of players to date:

- No. 1.—Grugan
- No. 2.—Kirkpatrick
- No. 3.—L. Warwick

for shares in either the long or short term series.

This is also a favorable time to change your mortgage into a Building and Loan Mortgage and pay for your property through the Narberth Building and Loan Association in eleven years.

A number of our stockholders are taking out shares to create a fund for sending their children through college, others use it as a savings bank, while some like to have a back-log so that they may feel if something goes wrong they have a fund put to one side for the emergency, as you can always borrow from the Association at six per cent., while your investment is earning more than eight per cent., and if you find that you need all you have put in, it can be withdrawn at any meeting.

Most of the loans are on property located in Narberth, so that you can see the security every day, and the loans have been so carefully made that the Association has never lost a cent through bad judgment, any of the Directors will explain the additional safeguards over your investment, such as the yearly audit by the Pennsylvania State Banking Department as well as the audit made by a committee of your own neighbors.

Increase your shares, as there is no better way of putting money away in a safe investment paying eight per cent.

THE FIRESIDE

(Continued from Page 1)

Mr. and Mrs. John B. Brooks entertained informally at dinner Sunday evening last. Covers were laid for six.

T. Fernley Brooks, of Island Heights, was the guest of Mr. and Mrs. John B. Brooks, on Wednesday and Thursday.

Mr. and Mrs. Horace E. Ruch left Thursday for Atlantic Highlands, New Jersey, to spend a week with Mr. and Mrs. William N. Parker.

In getting off a train at Paterson, N. J., last week, Mr. J. R. Aiken, of Narbrook Park, sprained his ankle, and is incapacitated for the time being.

Mrs. Van Aiken and her two children are visiting Lieut. Com. Van Aiken, who is stationed at Hampton Roads, Va.

Mr. H. S. Bradley and family, who have been living in Philadelphia, have returned to Narberth and are occupying their new home at 607 Essex Ave.

Miss Evelyn Patten, of Woodside avenue, motored to New York this week with her uncle and aunt, Mr. and Mrs. John Fletcher.

Mrs. Tillman O. Lane, of Queens, Long Island, formerly of Narberth, has been visiting Dr. and Mrs. C. J. Snyder.

Mr. and Mrs. Warren Wright, of Woodside avenue, have been entertaining Dr. and Mrs. Shannon, of Coatesville, Pa.

Mr. A. Banfield, one of Narberth's faithful firemen, is missing from the firehouse. He has gone on his vacation and we all hope there will be no fires while he is away.

Mr. and Mrs. Edmund Driggs, who have been residing at Hamilton Court, have leased a house on Wynnewood Terrace, which they will occupy after September first.

Judging from the great number of automobile demonstration, which have been from time to time taking place at 24 Woodside avenue, Mr. and Mrs. Muschamp are evidently considering the purchase of a car.

Mr. and Mrs. J. G. Atherholt, Mr. and Mrs. F. R. Gifford, Mr. and Mrs. J. H. Nash and daughter, left Thursday for Cotuit, Mass., to spend a week with Mr. and Mrs. L. W. Nickerson and Mr. and Mrs. Clement Booth.

Not a Slacker.

A letter from the War Department is posted in the lobby at the Post Office, the subject of which is "the removal of the name of Joseph Larkin, of Narberth, from the list of alleged draft slackers."

"Joe" Larkin is well known to many Narberth people. They also know that he served in the Navy during the World War. It is understood that he is still in the service, being stationed at present at San Francisco.

The above department should be of the greatest use to the community, the list contains the name of every professional man, tradesman, mechanic, shopkeeper, etc., who does or can in any way serve his fellow-townsmen, and who is progressive enough to add names to list in Register.
As it is difficult for those contributing their time and efforts to the production of "Our Town" to personally either know or interview all such, it would be most helpful if those not now found in the printed list would send in a memo of their names, address, phone numbers and businesses as professions for listing. This will cost as follows: 10 cents each issue for 3 issues; 5 cents for each additional list.

TIMELY DAHLIA TIPS

About August 15th, the experts say, is the time to fertilize dahlias. You can choose between sheep manure, cow manure or potato fertilizer or liquid sheep or cow manure.

Dig a circular trench, in a fifteen-inch circle around the main stalk not more than two inches deep, sprinkle in the trench about four ounces of fertilizer and cover lightly with soil. If liquid manure is used it will not be

necessary to cover over, as the rain or watering will wash the fertilizer down to the roots. Repeat this treatment every three or four days or about twice a week until September 15th, and the size, quality and number of flowers will more than repay you for the effort.

Disbud! Why have three small flowers with short stems which are useless for cutting, when you can have one fine large flower with a long strong stem by simply pinching out or breaking off the two side buds?

The Bird Column

PROTECTION OF USEFUL BIRDS

The recent series of articles by "C. D. R." on the Economic Value of Birds has aroused considerable interest and comment among Narberth bird lovers. Many who have always realized the part played by birds in making spring and summer enjoyable have never recognized the incalculable value of the insect-eating songsters to our country's crops.

To a lesser degree, the presence of these birds in our own yards will do much to reduce the damage to trees and shrubbery by worms and insects. Several families of insectivorous birds in a garden will do much more than any spray can accomplish.

The question naturally arises,—what can the individual do to attract useful birds to his property, and to protect them when once established? In a later series of articles, it is planned to take up the matter of winter feeding and the supplying of houses in the spring. At present, however, the responsibility of the individual lies in keeping down the enemies, natural and otherwise, of our useful birds.

The three worst enemies, so regarded by practically every authority are—man, the cat, and obnoxious birds, (such as the English sparrow.) We can't exterminate the first, but cats are found, homeless and otherwise in great quantities. These excess cats must be removed before the young birds can be reared in any safety, and no one can hope to keep a cat and have birds near his home.

The case of the English sparrow has been very thoroughly presented by the former writer in this column. Methods of extermination will be given next week, and again in the early spring.

By continued interest and concerted action, next year should find Narberth on a par with hundreds of other towns in the matter of bird attraction and protection.

People who live in glass houses should not take a bath in the day time.

When a man marries a woman for her money, he usually earns what he gets.

A bird like this makes a model husband

HER NICE new husband.
STEPPED OUT of the house.
WHISTLING LIKE a bird.
WHICH ALARMED young wife.
ESPECIALLY WHEN.
SHE FOUND she'd picked
THE WRONG package.
AND INSTEAD of oatmeal.
HAD GIVEN him birdseed.
BUT DON'T think from this.
THAT EVERY guy.
YOU HEAR whistling.
HAS NECESSARILY.
BEEN ROBBING the canary.
OTHER THINGS inspire.
THE ALMOST human male.
TO BLOW through his lips.
AND MAKE shrill noises.
A RAISE, for example.
OR A day off when.
A DOUBLE header is on.

OR AN everyday thing.
LIKE A good drag.
ON ONE of those smokes.
THAT SATISFY.
WHICH CERTAINLY are.
THE REAL birdseed.
FOR MAKING men.
TRILL THEIR pipes for joy.
SO LADIES, if hubby.
GOES AWAY whistling.
YOU NEEDN'T worry.
ALL'S SWELL.

WHEN you say that Chesterfields "satisfy," you're whistling. You know—the instant you light one—that the tobaccos in it are of prime selection, both Turkish and Domestic. And the blend—well, you never tasted such smoothness and full-flavored body! No wonder the "satisfy-blend" is kept secret. It can't be copied.

Did you know about the Chesterfield package of 10?
